CLEAN STEM Flash

A Timely Climate and Energy E-Learning Series to Use and Share

Topic: Earth Week

Next week is Earth Week! Take a look at these resources for ideas on lessons to build in preparation for Earth Day on April 22.

CLEAN Resource Feature

Video: [Energy Issues: What you need to know](#)

This video series from the Switch Energy Project serves as an introduction to the pros and cons of energy issues, including cost, choices, efficiency, environmental impact, and scale.

Video length: Each about 2 minutes.

Find more videos about [conservation](#) here.

These five videos are short, but informative. Use them during Earth Week to teach your students about how different energy sources

CLEAN Resource Feature

Activity: [Greenhouse Emissions Reduction Role-Play Exercise](#)

This activity has students role-play as important players in climate change policy decisions.

Activity takes two 2-hour class periods.

Look for more [role-playing activities](#) here!

In this activity from Pedagogy in Action Collection from SERC, students take on the roles of climate change decision-makers (politicians, scientists, environmentalists, and industry representatives) to debate with one another and vote on legislation designed to reduce greenhouse gas emissions in the United States.

Climate & Energy in the News

Earthday.org is using Earth Day 2018 to focus on eliminating plastic waste. You can read about their campaign [here](#) or take a look at their blog [here](#) to learn more about plastic pollution.

Explore the CLEAN collection of climate & energy learning resources

CLEAN supports teaching and learning about climate and energy with 650+ free peer-reviewed, scientifically accurate, and classroom-ready resources.

[Browse](#) the CLEAN collection by NGSS topics.

Check out the [CLEAN STEM Flash Library](#) of past issues.
