

**URSI National Radio Science Meeting**  
*January 4-7, 2006 ? Boulder, Colorado*

Special Sessions

*Note: The letter "S" indicates special session ? it is followed by the Commission and the session number.  
If a joint session, the leading commission is listed first.*

- S-A1            Dielectric spectroscopy and dielectric detection methods  
*Organizers: J. Baker-Jarvis, M. Janezic*
- S-A/D1        Multi-standard, multi-service wireless universal receivers: design and development  
*Organizers: A. E. Fathy, V. K. Nair*
- S-B1            Electromagnetic applications of metamaterials  
*Organizer: J. L. Volakis*
- S-B/E1        Penetration of EM radiation and coupling into cavities including effects on digital electronics  
*Organizer: D. Erricolo*
- S-G1            Radio and radar techniques  
*Organizers: F. Lind, J. Sahr*
- S-G2            Data assimilation  
*Organizers: B. Wilson, L. Scherliess*
- S-G3            Ground and space based radio beacons  
*Organizers: A. Komjathy, F. Kamalabadi*
- S-G4            Ionospheric space weather and forecasting  
*Organizers: T. Fuller-Rowell, J. Foster*
- S-G/H1        Active experiments  
*Organizers: P. Bernhardt, W. Scales*
- S-G/H2        Meteor physics  
*Organizers: J. Mathews, Y. Dimant*
- S-G/H3        Plasma instabilities and waves  
*Organizer: M. Oppenheim*
- S-H1            Laboratory experiments and dusty plasmas  
*Organizers: W. Amatucci, R. Merlino, E. Bering*
- S-H/G1        Radiation belt  
*Organizers: J. Albert, J. Bortnik*
- S-H/G2        Ionospheric effects of lightning  
*Organizers: E. Gerken, V. Pasko*

- S-J1            Radio astronomy teaching laboratories and instruments  
*Organizer: R. Mutel*
- S-J2            New interferometric calibration techniques  
*Organizer: M. Wright*
- S-J3            Challenges and new algorithms for interferometric imaging  
*Organizer: S. Myers*
- S-J/B1          Submillimeter and THz technology for radio astronomy  
*Organizer: S. Radford*
- S-J/B2          Focal plane array technology  
*Organizers: C. Walker, Y. Rahmat-Samii*
- S-K1            Advances in medical applications and biological effects of electromagnetic fields  
*Organizer: T. Ibrahim*

---

In addition to the above special session, there will be two plenary talks on "Spectrum Management". The organizers of the plenary session are Karen St.Germain (Comm. F) and Andrew Clegg (Comm. J).
