

Lab/Field Assistant Wanted

CIRES-Center for Limnology

The Center for Limnology conducts research on lakes and streams in Colorado. Field sampling is conducted throughout the year at sites along the Front Range and on the West Slope. Analytical work is performed in the Center's laboratory facilities (located in the CIRES building). For more information on the Center for Limnology, see <http://cires.colorado.edu/limnology/>.

We seek to hire a lab/field assistant to help with several projects. Duties will include preparation of samples and standards for lab analyses, operation of basic lab equipment (e.g., spectrophotometer, analytical balance), and sample collection from lakes and streams. Days in the field can be long (>8hr).

To be eligible for this position, you must be a student enrolled at CU. A valid driver's license and a good driving record are required. Prior experience is not necessary, but some lab experience and boat-handling skills are preferred. **Eligibility for work-study aid is preferred but not required.** This position is intended for someone with an interest in aquatic sciences and a desire for practical experience prior to graduate school or a professional position. **To participate in field studies, you must be able to swim.**

Pay rate: \$9-16/hr; depending on experience
Schedule: part time; Mon - Fri; normal business hours, except field days

To apply, please mail a cover letter and resumé to:

Dr. James McCutchan
Center for Limnology/CIRES
UCB 216
University of Colorado
Boulder, CO 80309-0216

You may hand-deliver (Room 246 CIRES) your application, but please do not send by e-mail.

In your cover letter, please indicate 1) why you are interested in this position, 2) how many hours/week you can work, 3) if you have any scheduling conflicts (e.g., summer school classes), 4) when you would be available to start, and 5) if you are eligible for work-study aid.

The University of Colorado at Boulder is committed to diversity and equality in education and employment.
