Ortega-Olivencia, A., Rodríguez-Riaño, T., Valtueña, F. J., López, J. and Devesa, J. A. 2005. First confirmation of a native bird-pollinated plant in Europe. – *Oikos* 110: 578–590.

The last sentence of the abstract is incomplete because several words have been omitted. The complete sentence should be say “This is the first proof of the existence of a native European bird-pollinated plant, since besides its peculiarities (flowers odourless, pseudotubular, with no landing platform, pendulous, diurnal anthesis, copious dilute hexose-rich nectar), the flowers of the studied populations were mainly pollinated by three passeriform species.”

McCutchan, J. H. Jr., Lewis, W. M., Kendall, C. and McGrath, C. C. 2003. Variation in trophic shift for stable isotope ratios of carbon, nitrogen, and sulfur. – *Oikos* 102: 378–390.

1) Equation 2, which reads “ $\lambda = ((\delta^{15}\text{N}_{\text{consumer}} - \delta^{15}\text{N}_{\text{base}}) / \Delta\delta^{15}\text{N}) + 2$ ”, should read “ $\lambda = ((\delta^{15}\text{N}_{\text{consumer}} - \delta^{15}\text{N}_{\text{base}}) / \Delta\delta^{15}\text{N}) + 1$ ”.

2) In Appendix 1, two of the values for $\Delta\delta^{13}\text{C}$ from the paper by Teeri and Schoeller (1979) are given in correctly. The value for the corn diet should read +1.8, rather than –2.7; in the next row after the corn diet (i.e. the first of the prepared diets), the value for $\Delta\delta^{13}\text{C}$ should be +1.9, rather than +1.8. These two errors in the appendix occurred during the preparation of the manuscript and do not affect any of the values presented in the body of the paper.
