CLEAN STEM Flash

A Timely Climate and Energy E-Learning Series to Use and Share

Topic: In the Wake of Flooding

Across the world, flooding is becoming a more prevalent and damaging issue to many communities and ecosystems. Check out more on the topic below.

CLEAN Resource Feature

Video: Tuvalu - Islands in the front line of climate change

Flooding on the Tuvalu Islands is increasing in frequency as the sea level rises due to climate change.

Video length: 6:26 min.
Audience: High School, College

Browse CLEAN for more resources related to Floods.

Sea level rise is one of many different causes of flooding around the world. See how it impacts the people and ecosystems of the Tuvalu Islands as the intensity of flooding,
Flooding and Climate Change

CLEAN Resource Feature
Activity: Extreme Weather on Earth

This interactive activity teaches students about extreme weather events that lead to flooding.

Audience: Middle School, High School

Take a look at some more CLEAN activities focused on Extreme Weather.

In the News: Flooding in Midwestern United States

Learn more about the historic flooding that happened in the Midwestern United States as a result of the "bomb cyclone" in March 2019.
Explore the CLEAN collection of climate & energy learning resources

CLEAN supports teaching and learning about climate and energy with 700+ free peer-reviewed, scientifically accurate, and classroom-ready resources.

Browse the CLEAN collection by NGSS topics.
