

August Meeting (8/12/2019)

Mistia Zuckerman, NSIDC (Chair)
Jon Kofler, GMD (Secretary)
Nathan Campbell (Main Campus)
Dawn Umpleby, (Earth Lab)
Adam Woods, (NCEI)
Molly Hardman (East Campus)
Michael Toy, (GSD)
Candida Dewes, PSD (zoom)
Aaron Sweeney, NCEI (zoom)
Andrew Badger (Main Campus)
Eric Adamson (SWPC)
Paul Lotoanin (NCEI)
Janice Bytheway (PSD)
Ryan Cassotto (Main Campus)
Gaby Petron (GMD)
Location: The Taj
Meeting called to order: 12:33

1. Introductions

Andrew Badgers last meeting Ryan Cassado attending to possibly become a CMC member.
Janet Bytheway looking to take over Candida Dewes position.

2. Waleed PI on proposals

If you get a grant from NOAA, it does not show or give CIRES contributors recognition even if they fully write the proposal. Paul Looamin is not listed as the PI even though he is. At NSIDC the people who assembled the grant are given credit by (jay reeves) someone at their organization. NOAA grants need to be a NOAA employee (because operational? Instead of research). They are the final signature and their names are on the paperwork. Gaby is a PI on a climate program office grant. Under the cooperative agreement, it must be under Waleed's name. Overhead is overlooked too for some of the grants. We should bring this up with Waleed so that scientists can get recognition. Could be part of cooperative agreement. Nate, it has been brought up to him before.. It would be good to get a status update. **Action item: Paul and Mista put together a description of the problem and then send it to clusters or bring it to Christine.mis**

2. Christine Weidemeyer updating Career Tracks.

Christine is rewriting career tracks, and wants to hire everyone as a RS1. She is trying to create guidelines but is running into different requests from different groups. Aaron.. If you are denied

promotion there should be feedback as to why you don't get a promotion. More than one person has been denied and no feedback was given as to why they were denied.

Susan Sullivan was going to get data about salaries. Angela Knight will be at the next meeting.

Action item: Mistia will send something out after this meeting for us to create a list of questions or discussion items for the next meeting when Angela Knight is here.

3. Leave take out of current grant

See summary

Nate: CU takes overhead. The overhead could be used to cover leave or sick leave. Now that there is paid maternity leave, the maternity leave will come out of grant. LASP charges a higher overhead LASP 59%, CIRES 51%. Talk to office of contracts and grants, or HR. How did Ed pursue. Nate, maybe finance could take it up? **Action item: Mistia will talk Ted and Christine**

4. Need Mentoring Program Chair

5. Old business

Rendezvous: Survey had only 2 responses. One person didn't like the tent. One person said they didn't like the day of the week and wished there were more posters.

Discussion of alternate locations where there may be more space for posters. The Millennium is too small. Center green near? Discussion of middle of the week instead of Friday but no conclusion. Discussion of alternating time at posters to allow poster hosters to have viewing time as well. Possible methods: Animal groups or even/odd poster numbers having different hosting/viewing times.

CMC website: We need more success stories about the CMC because it was lost with the old website. Nate says the old website information is still available and can be resurrected.

Breast Milk shipping travel reimbursement: Mother shipping breast milk. Haven't heard back from her. We needed something in writing to move forward with it.

Housing. Mistia knows of someone in infrastructure who is responsible for south campus development and will talk with her

Meeting Adjourned 13:50
